

## Sultan Bin Tahnoon chairs the Executive Committee Meeting

(Abu Dhabi, 27 July 2011), The Executive Committee, chaired by H.H. Sheikh Sultan Bin Tahnoon Al Nahyan, Chairman of Abu Dhabi Tourism Authority and member of Executive Council, Abu Dhabi, met this week and approved the Water pipeline replacement project (from Al Shawamekh roundabout to Zayed Military city ) submitted by Abu Dhabi Water & Electricity Authority.

The project will include the establishment of a water pipeline with all its installments, valves, fire nozzles and other accessories required, removal of the old pipeline with all its installments, and set up water flow measurements along the pipeline with all additional works required.

The Committee reviewed number of other projects, including an additional budget request for the Department of Economic Development, re-assessment of future traffic flow based on the impacts of modern urban developments in the northern area of Abu Dhabi Island, maintenance and innovation of communal houses in Western region cities and the Photovoltaic Solar plant in Masdar City.

The Executive committee also reviewed the study conducted for the establishment of Abu Dhabi Education Council new building, besides to the operational budget for the Critical National Infrastructure Authority.

The Executive Committee also reviewed number of other important topics which were submitted for inclusion on the agenda by other government entities in Abu Dhabi.
